

Thermo products

## Know-how shapes the product

**Artekno's thermoinsulated containers maintains the desired temperature when transporting hot, cold or frozen products.**

### THE ARTEKNO THERMO PRODUCT IS

- Light
- Durable
- High quality
- Certified
- Machine washable
- For hot, cold and frozen goods
- Temperatures from -40 °C to +120 °C

### ADDITIONAL EQUIPMENT

We offer a wide range of cold packs, hot packs, location tracking and temperature monitoring to support your logistics. Our range also includes lifting plates, layer lids, cold gel baskets and trolleys.

### MATERIALS

We offer a number of expanded polystyrene materials: durable EPP, expanded polypropylene, lightweight EPS, and responsible ARTEKNO OCEAN produced with plastic collected from the sea.

### CUSTOMISED PRODUCTS

We have developed customised products for logistics in food and healthcare. Artekno's design team can be relied on to expertly create just what you need according to the dimensions you provide.

### QUALITY AND THE ENVIRONMENT

In all our operations, we consider your quality requirements, the environment and the prevention of environmental degradation. Artekno has a certified quality and environmental management system.

EPS

EPP

ARTEKNO OCEAN

“ On average, 15 tonnes of plastic end up in the seas every minute.

## Artekno Ocean

### A sustainable choice for change

The Finnish Artekno Ocean is the first cooler bag to use **15% recycled expanded polypropylene material made of marine waste collected from the sea**, such as fishing nets or ropes.

Artekno Ocean is the ideal choice for cleaner seas – a lightweight, durable, sustainable and long-lasting premium-quality product. Artekno Ocean Utö 6 and Utö 25 are made of ARPRO 35 Ocean material. The material's physical properties and performance are comparable to normal ARPRO material, but the production process generates **7% less carbon dioxide emissions**.

Thanks to the structural strength of ARPRO EPP expanded polypropylene, it withstands impact and strain better than conventional polystyrene or EPS expanded polystyrene. **It is a fully recyclable**, elastic material that absorbs energy and returns to its original form after impact.

For every Artekno Ocean product sold, €1 will be donated to the preservation of the Baltic Sea.

#### UTÖ 6

Product number 12239

- External dimensions 260 x 200 x 230 mm
- Volume 6 L
- Weight 330 g

#### PRODUCT SPECIFICATION:

- Storage temperature: from -40 °C to +120 °C.
- Durable EPP can be used to carry up to 80 kg loads.
- Durable recycled plastic strap

15% recycled material

Withstands loads of up to 80 kg placed on top

Extra cold with Artekno cold gels

#### UTÖ 25

- External dimensions 400 x 370 x 300 mm
- Volume 25 L
- Weight 950 g
- Internal cold-conducting channels
- concave bottom and convex lid prevent humidity

## GN-DIMENSIONED EPP THERMO BOXES

Artekno's thermo box range designed for professional use. Thermo boxes made of EPP expanded polypropylene are high quality, withstand heavy use, are machine-washable and GN-dimensioned.

GN 1/9

### EPP THERMO 6.2 L

Product number 12239

- External dimensions 263 x 233 x 197 mm
- Internal dimensions 218 x 188 x 154 mm
- Space for two GN 1/9 trays
- Weight 0.3 kg

GN 1/2

GN 1/3

### FRONT LOADER THERMO 70 L

Product Number 12098

Front loaded thermo with a lockable hinged door. 11 rails provide plenty of room for GN trays (1/1, 1/2, 1/3). Rails are compatible with shelves, hot plate 230 V, cool packs, hot packs and cold elements. The thermo is stackable and equipped with sturdy grips and metal handles.

- External dimensions 635 x 410 x 550 mm
- Internal dimensions 530 x 325 x 448 mm
- Weight 4.5 kg

6416535120986

### GN 2/1

## EPP TROLLEY BOX 242 L

Product number 12078

An excellent choice for transporting refrigerated goods in a normal distribution vehicle. Fits inside a 810 x 630 mm trolley, up to two cabinets on top of each other.

Grooves on the bottom and lid enable stacking. The trolley box has a 2-piece hinged and lockable door that opens by 270 degrees, enabling easy loading and unloading.

Equipped with 7 rails for GN 2/1 trays or cold gel baskets. Additional equipment: cold gel baskets and cold gel elements. Incl. 1 shelf per cabinet.

- External dimensions 800 x 620 x 850 mm
- Internal dimensions 650 x 510 x 730 mm
- Weight 16.0 kg

6 416535 120788

## EPP THERMO BOXES

### SEULO THERMO 60 L

Product number 12189

Designed for food transportation. Divides into three temperature departments with EPP partitions: frozen, refrigerator temperature and room temperature. 10 grooves for partitions, contains 2 pcs. Removable lid, sealable and hinged. Equipped with a delivery note pocket and a plastic marking plate.

- External dimensions 660 x 400 x 430 mm
- Internal dimensions 486 x 320 x 365 mm
- 2 transferable EPP partitions included
- Weight 2.5 kg

6 416535 121891

### EPP THERMO 65 L

Product number 12004

Designed for multiple uses for industry, tour service entrepreneurs as well as for frozen and hot food transport. The thermo volume is sufficient for transporting a milk basket. Excellent thermal properties due to thick wall thickness. Equipped with metal handles, closing strap, delivery note pocket and plastic marking plate. Additional equipment: layer lid and cold elements for the delivery of refrigerated and frozen goods.

- External dimensions 600 x 500 x 400 mm
- Internal dimensions 500 x 400 x 320 mm
- Weight 3.6 kg

6 416535 120047

### EPP THERMO 100 LITRES WITH PARTITION WALL

Product number 12058

Dividable into two different temperature departments with EPP partition: frozen and refrigerator cold. Equipped with one EPP partition, sturdy metal handles and a closing strap.

- External dimensions 990 x 450 x 410 mm
- Internal dimensions 890 x 355 x 330 mm
- Weight 4.6 kg

### BOX' IN BOX THERMO 102 LITRES WITH HANDLES

Product number 12060

Accommodates 600 x 400 mm boxes, such as fruit and vegetable, fish or meat boxes. Equipped with a delivery note (A5) compartment, plastic marking plate, metal handles and closing strap. Additional equipment: Cold gel basket and Cold gel elements.

- External dimensions 700 x 500 x 480 mm
- Internal dimensions 620 x 420 x 395 mm
- Weight 4.0 kg

### EURO PALLET THERMO

Ideal for transporting temperature-sensitive goods, which require the maintenance of a constant temperature. Consists of a Euro pallet size (800 x 1200 mm) bottom and top parts and frames.

Easy and fast unloading: remove lid, open tongues and the entire long side lifts off at once. Space saving storage: dismantles and retunes requiring a lot less space.

Wall thickness 60 mm. Additional equipment: cold gel baskets and cold gel elements.

### STYROPAK THERMO BOXES

Styropak thermos are a familiar and safe way to store food. Combine these parts to make three boxes of different heights.

#### 11.5 L

- External dimensions 445 x 300 x 165 mm
- Internal dimensions 395 x 250 x 120 mm
- Weight 0.24 kg
- Two-part lid, with the parts facing each other

#### 20.5 L

- External dimensions 445 x 300 x 255 mm
- Internal dimensions 395 x 250 x 209 mm
- Weight 0.32 kg
- Lid and base, facing each other

#### 29.5 L

- External dimensions 445 x 300 x 345 mm
- Internal dimensions 395 x 250 x 298 mm
- Weight 0.40 kg
- Two-part base, with the two parts facing each other

### STYROPAK 3-AMPOULE BOX

Product number 10019

- Ø 16
- External dimensions 145 x 195 x 32 mm

### STYROPAK 40-AMPOULE BOX

Product number 10023

- Ø 16
- External dimensions 190 x 125 x 130 mm

### STYROPAK SMALL CUBE

Product number 10176

- External dimensions  
240 x 240 x 260 mm
- Internal dimensions  
150 x 150 x 176 mm
- Volume 3.9 L
- Weight 0.22 kg

### STYROPAK LARGE CUBE

Product number 11771

- External dimensions  
326 x 326 x 355 mm
- Internal dimensions  
225 x 225 x 247 mm
- Volume 12.0 L
- Weight 0.62 kg

### STYROPAK EXTRA LARGE CUBE

Product number 10185

- External dimensions  
586 x 486 x 496 mm
- Internal dimensions  
440 x 350 x 340 mm
- Volume 52.0 L

## STYROPAK CONTAINERS

Styropak containers suitable for hot and cold. Inexpensive and secure. Designed especially for thermal transportation: ice cream, frozen goods, convenience food, meat. Containers are equipped with metal carrying handles. The handle fastening mechanism is extremely durable.

### 60 L

Product number 10003

- External dimensions  
600 x 400 x 500 mm
- Internal dimensions  
500 x 300 x 400 mm
- Weight 1.6 kg

ARTEKNO DESIGN TEAM

## Knowhow shapes the product

A functional product, device or part is the sum of a good idea, correct technology and careful design. Material and design professionals at Artekno Design support customers at every step of the process: from the good idea to the splendid product.

## Ask us anything! Artekno Design will answer

If you have an idea, ask us how to make it a reality. We will help you refine the idea and develop and design the product - all the way to logistics.

## COLD GEL ELEMENTS

Cold storage time can be increased significantly by using Artekno cold gel elements. The elements are neat and simple to use. The cold gel element is kept in a freezer for 10 to 20 hours, after which it is ready for use. It can be refrozen any number of times.

### EPP CAKE BOX MAXI

Product number 12095

Ideal for catering services to transport and serve items such as layer cakes, pies and pizzas.

- Internal/external diameter 360/400 mm
- Internal/external height 140/190 mm

6 4 16535 120955

## COLD PLATES

Cold plates keep cold foods sufficiently cold for serving in buffet services, restaurants, schools, hotels and for catering at events. They are easy to use and maintain: just place a frozen cold gel element inside the cold plate and it is ready for use. Cold plates are machine washable.

### COLD PLATE EPP FOR CREAM AND MILK

6 4 16 535 12233 1

### PIZZA WARM BAG

Product number 12235

• Dimensions 450 x 450 x 120 mm

6 4 16 535 12235 5

### PIZZA WARM BAG

Product number 12234

• Dimensions 400 x 400 x 250 mm

6 4 16 535 12234 8

### PIZZA WARM BAG

Product number 12236

• Dimensions 450 x 450 x 250 mm

6 4 16 535 12236 2

### PIZZA WARM BAG 40 CM

Product number 12179

• Dimensions 400 x 400 x 250 mm  
• 12 V car plug

6 4 16 535 12179 2

### PIZZA WARM BAG 45 CM

Product number 12180

• Dimensions 450 x 450 x 250 mm  
• 12 V car plug

6 4 16 535 12180 8

## TEMPERATURE MONITORING SLIPS

- Inexpensive
- Disposable
- Thermometer system
- Three temperature ranges
- 100 pcs per package

### TEMPERATURE MONITORING SLIP

Temperature monitoring slip Seafood +3 °C

Temperature monitoring slip Food +5 °C

Temperature monitoring slip Food +8 °C

### BATCH

1 bag (100 pcs)

1 bag (100 pcs)

1 bag (100 pcs)

## How to use temperature slips:

Activate the slip by pressing the activation button all the way down and ensure that the left-hand side activation window turns blue and the word 'On' appears. If the word does not appear, press again. Within 2 to 3 minutes of activation, place the slip at a temperature below the activation temperature\* to cool the liquid for use.

If the indicator window is completely blue, the temperature thresholds have been exceeded. If no colour appears in the window, no action is required. The monitored product has remained within the time and temperature thresholds.

In case of a completely blue window, the monitored products must be discarded.

\* Activation:

PRODUCT	ACTIVATION TEMPERATURE	ACTIVATION TIME
Seafood 3°C	0°C or below	minimum 10 min.
Food 5°C	3°C or below	minimum 60 min.
Food 8°C	6°C or below	minimum 60 min.

### PICNIC EPP THERMO 27 L PLASTIC STRAP

Product number 12132

- External dimensions  
425 x 280 x 420 mm
- Internal dimensions  
365 x 224 x 365 mm
- Weight 1.0 kg

6 416535 121327

### EPP FISHING THERMO STRAP

Product number 12092

- External dimensions  
350 x 250 x 470 mm
- Internal dimensions

- Weight 1.25 kg
- Volume 19 L
- Load capacity 350 kg
- Textile strap, removable fish lid,  
partition wall and hinged lid

6 416535 120924

### ICE-FISHING STOOL HIGH WITH A FISH HATCH

Product number 10078

- Dimensions 280 x 190 x 410 mm
- Good sitting height
- Plastic strap
- Plastic base reinforcement

6 416535 100780

### REPAKKI FISHING BACKPACK THERMO

Product number 12093

- Dimensions 350 x 250 x 470 mm
- Internal dimensions 290 x 175 x 385 mm
- Weight 1.25 kg
- Volume 19 L
- Padded shoulder straps, removable fish lid,  
partition wall and hinged lid

6 416535 120931

## Food packaging from our product range or custom-made according to a mould

Artekno's know-how, skill and experience come in a single package. We help you with food packaging design from the start. Material and shape can have a significant impact on package costs, functionality and environmental friendliness. Artekno provides a suitable batch, either from our product range or customised for your needs.

## Aluminium packaging

Aluminium packaging from our extensive product range that also covers lids and foil rolls.

## Cardboard packaging

Halopack® cardboard packaging. Thermoformed cardboard trays according to product requirements.

## Plastic packaging

Recyclable polypropylene (PP) packaging. Select a suitable packaging solution from Artekno's online catalogue, or contact us.

## Tray sealers

We also provide tray sealers.
